EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Sammons on 8/16/05.

The application has been amended as follows:

In Claim 10: in line 3, after "conductive surface", - - for contacting the subject- - has been added;

and in line 6, before "conductive layer", - -back surface of the- - has been added.

The following is an examiner's statement of reasons for allowance: In a phone interview with Mr. Sammons on 8/16/05, the Examiner indicated that a reference had been discovered that appeared to read on allowed Claim 10. Loutis et al., US — 6,415,170 was discussed in depth and the above amendment was agreed upon in order to clarify that the conductive surface has a patient contact side and a clinician contact side (the back surface). The adhesive (8) of Loutis et al. cannot "enable the back surface of the conductive layer (element 9 in Loutis) to be removably attached" to any subject, let alone a clinician, as now claimed since the layer (7) would inhibit such contact.

Art Unit: 3762

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey R. Jastrzab whose telephone number is (571) 272-4947. The examiner can normally be reached on M-W 5:30 a.m. to 4:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela D. Sykes can be reached on (571) 272-4955. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
